

NuggetBot

Player Guide

Everything you need to earn nuggets, gear up, raid bosses, run heists, dodge the virus, and climb to endgame.

Type / in Discord to see all slash commands.

1. Getting started

NuggetBot is a server economy game. Your currency is nuggets. Most actions use slash commands: type / in any channel where the bot can read messages.

- Check your wallet: /balance
- Claim free nuggets daily: /daily
- See your combat build: /stats
- Browse gear: /shop

Passive income: chatting, staying active each hour, hanging in voice, and random coin drops in the main channel all add nuggets without commands.

2. Earning nuggets

- /daily - once every 24 hours (default 75 nuggets)
- Chat in server - small reward per message
- Voice chat - nuggets per minute in VC
- Coin drops - first to click Claim wins (needs several active chatters)
- /pay @user amount - send nuggets to friends
- /leaderboard - richest players
- /hall-of-fame - richest, boss kills, heals, achievements
- /quests - onboarding steps and daily goals
- Boss raids - damage share when Hannah falls
- /trivia - guess a word from server history
- /heist - steal from others (risky)
- /bounty - reward when someone says a trigger word

Prestige and seasonal events can multiply your income (see section 10).

3. Shop and gear

- /shop - list weapons and armor (10 tiers each)
- /buy item_id - purchase (use autocomplete)
- /inventory - owned items with stat lines
- /equip item_id - wear weapon or armor
- /sell item_id - sell one copy for half shop price

Weapons: base damage + random 1-5 per hit, plus crit chance.

Armor: reduces boss counter damage and adds max HP in raids.

Top shop tier: Nugget Excalibur + Nugget Immortal Plate (120,000 each).

Beyond that: Mythic Voidreaver + Mythic Aetherplate (175,000 each).

Ultimate shop: Apex / Sovereign / Transcendent sets (500k / 750k / 1.5M per piece).

Gear sets (bonus)

Equip a matching weapon + armor theme for +5% damage and extra mitigation. Examples: Ember Axe + Ember Mail, Void Blade + Void Ward, Nugget Excalibur + Nugget Immortal Plate.

/stats shows your full combat sheet including set and prestige bonuses.

4. Boss raids (Hannah)

A boss spawns automatically about every 2 hours, or an admin can /summon. Everyone attacks together; rewards split by damage dealt.

- /boss - HP bar and threat level
- /attack - hit Hannah (need gear equipped for best damage)
- /raid-leaderboard - who is contributing most
- /heal @user - revive downed raiders (+1000 nuggets; +100 if you revive yourself)

Boss variants (weakest to strongest): normal, enraged, shadow, celestial, mythic.

TomAss: rare enraged mirror boss with regen every 3 hits (admin /summon).

Bosses have elements - class element can boost or reduce your /attack damage.

At 75%, 50%, and 25% HP Hannah enters new phases - counters get nastier.

Loot: battle-worn gear (common), epic raid pieces (rare), mythic drops on celestial/mythic kills.

/craft - upgrade battle-worn drops into real shop items for a fee.

5. Quests and hall of fame

Quests:

- /quests - view onboarding or daily goals (resets at UTC midnight)
- /quest-hint - nudge for your current objective
- New players get a short onboarding chain; veterans get 3 random dailies
- Rewards pay automatically when you complete a goal

Hall of fame:

- /hall-of-fame - server legends in one embed
- Categories: richest, boss kills, heals given, achievement count

6. Casino and PvP duels

Casino (tax on winnings):

- /coinflip amount - 50/50 vs the house
- /coinflip-duel @user amount - PvP coinflip with Accept button
- /blackjack amount - hit or stand vs the dealer

Duels:

- /duel @player - gear-based turn fight; battle log in channel
- Loser pays 10% of wallet to the winner (default)
- 40-minute cooldown before attacking the same player again
- Max 3 duels started per hour

7. Heists and bounties

Heists:

- /heist @target [@crew1] [@crew2] - steal 20% of wallet on success
- Better weapon = higher success (intimidation bonus, up to +10%)
- On failure, target can /arrest you within 5 minutes
- 30-minute cooldown between heists

Bounties:

- /bounty @user amount trigger_word - pay to place (min 50 + tax)
- Whoever makes them say the word (alone in a message) wins the pot
- /bounties - list active bounties

8. The virus (hot potato)

- /hack @user - start the virus on someone (5 min cooldown per hacker)
 - Holder must /transfer @user before the timer runs out
 - Each pass increases the penalty if it detonates
 - Larger wallets take slightly less damage when it pops
- Watch the embed timer bar - do not hold it when time is low!

9. Progression and classes

- /achievements - track unlockable goals
- /prestige confirm:true - reset wallet (need 100k+) for permanent +crit and +income
- Max prestige 10 - stacks +1% crit and +2% income per level

Classes:

- /class-choose - pick Vanguard, Mogul, or Shade (one time)
- /class - view XP and modifiers; /class-evolve when ready
- Earn class XP from duels and boss /attack damage
- Hybrids Warlord and Archon unlock after two master paths

Jobs (/jobs, /work) pay 4.5x base rates; class can further modify payouts.

Mana and class skills

- /mana - mana bar, regen rules, ready spell
- /skills - list your class spells and mana costs
- /cast skill_id - spend mana to cast (see /skills for ids)

Most classes regen mana slowly over time (+2 every 45s) but mainly refill from dealing damage (18% of boss hit damage). High DPS = more casts.

Healer classes (Vanguard Warden branch) regen mana faster over time (+7 every 20s) and get less mana from damage (6%) so they can heal without spam-attacking.

Offensive spells charge your next /attack or /duel. Self-heals apply on cast. Blessing boosts your next /heal payout. Smoke skills buff your next /heist.

Achievement examples: first boss kill, 25 raids, mythic slayer, heist king, field medic, own Excalibur.

10. Seasonal events (admin)

- /event status - see active event

Admins can run:

- double_drops - 2x boss loot chance
- bonus_income - 1.5x nugget earnings
- festival_boss - 1.25x boss HP
- trivia_fiesta - 2x trivia rewards

11. Command quick reference

Economy

Tips

- Equip gear before raiding - /stats shows your damage range.
- Match set pieces for the damage bonus.
- Heal downed teammates - you earn nuggets and achievements.
- Craft battle-worn drops instead of selling them cheap.
- Use /stats public:true to show off your build in channel.
- Check /quests daily for bonus nuggets.
- Duel prepared opponents - gear and HP matter.
- Cast a spell before /attack or /duel for bonus damage or defense.
- Warden healers: /cast mend, then keep raiding without burning out on mana.
